A WAREHOUSE WORKHORSE

The Hyster® HY55-PT manual hand pallet truck delivers exceptional durability, functionality and serviceability at competitive pricing. It can be customized in many different variations and configurations to fit your specific application, including: low profile models, stainless steel, galvanized and weigh scale.

DURABILITY

- Heavy 1.25" steel adjustable push rod
- 2.1" steel C-channel
- 8" reinforcing bars
- 9" handle base support

SERVICEABILITY

- Serviceable pump with large oil reserve

FUNCTIONALITY

- 10 full pump strokes to reach maximum lift; hand release or foot release design
- Articulating axle for superior maneuverability
- Entry rollers and 3 exit rollers to eliminate "pushing" and "pulling" pallets

SPECIFICATIONS:

Fork length: 48"
Forks overall width: 27" or 20.5"
Lowered fork height: 2.9"
Raised fork height: 7.8" / 7.5"
Single fork width: 6.5"
Weight: 180 lbs.
Steer wheels: 7"
Load rollers: 2.9" x 3.6"
Wheels / rollers: polyurethane

ADDITIONAL OPTIONS:

Nylon/rubber wheels
Quick lift
Auto brake
Load backrest

WEIGHT SCALE PALLET TRUCKS

Allows the operator to easily lift, transport and weigh loads up to 99.9% accuracy. Features an easy to read meter with a large LCD display, keypad and automatic tare functions.

SEMI-ELECTRIC PALLET TRUCK

Designed as an economic alternative to fully electric models. These units feature standard manual pallet truck style pumping operation for lifting and lowering loads, and self-propelled movement for easy transporting of goods.

GALVANIZED & STAINLESS STEEL PALLET TRUCKS

Designed for corrosion resistant, chemical exposure environments as well as cold room temperatures.

LOW PROFILE PALLET TRUCKS

Designed for handling unconventional loads too low for standard pallet Trucks. Available in low, super low, and low profile 4-way (predominant in the grocery industry.)

ALLIED PRODUCTS

An impressive selection of transport, storage and material handling equipment to include scissor lifts, lift tables, hydraulic stackers and space-saver equipment.

LOAD BACKREST PALLET TRUCKS

Designed for applications with taller loads to help prevent load instability.

INNOVATIVE TRUCKS ENGINEERED TO MEET THE MOST DEMANDING APPLICATIONS

For over 90 years, Hyster has conquered the world's most demanding applications. In the 1920s Hyster started as a manufacturer of lifting machines used in the rigorous logging industry of the United States' Pacific Northwest. A few years later the first forklift trucks were invented and the Hyster brand quickly gained its reputation for rugged quality. Hyster® lift trucks are designed to lower your cost of operations. Every truck we make — whether powered by gasoline, LPG, diesel, electric, CNG, lithium-ion or hydrogen fuel cells — is purpose-built to excel in its application. Every truck is also backed by an unmatched network of specialists.

Dealer Network — Our Dealer Network can offer the expertise of fleet managers, parts suppliers, capital procurement specialists and trainers. Carefully chosen dealers fully understand customer applications, assist in selecting the right lift truck and provide fast, reliable support.

Hyster Fleet Services — Even if you operate other brands, we can manage your maintenance and replacement plan. We can offer complete fleet analysis, fleet history summary and a cost-effective proposal for replacement and scheduled maintenance.

Parts — With genuine Hyster® replacement parts and UNISOURCE™ parts for all makes of lift trucks, we are your one-stop source for lift truck parts. In fact, we offer more than 7 million part number crosses for most brands of materials handling and other in-plant mobile equipment.

Rental Products — When leasing or buying isn't a practical option, we have access to more than 14,000 units for short- and long-term rental. We'll help you maintain output in a cost-effective manner.

Hyster Capital — We can arrange solutions for special financing requirements, taking the difficulties out of buying the equipment you need. Whether you purchase or lease a new or used lift truck, Hyster Capital offers superior service and competitive rates.

Special Products Engineering Department (SPED) — Different materials require different handling. That's why we can work with you to customize your lift trucks. From strobe lights to specially made forks, SPED has the tools to help you get the job done right.

Operator Training — Proper education in operating lift trucks minimizes the risk of injuries due to accidents while increasing productivity. Hyster offers OSHA-compliant materials that support the training of qualified operators.

Service — Your local Hyster® dealer offers a flexible, customized and comprehensive maintenance plan based on each lift truck's operation environment. Hyster service programs offer scheduled inspections and maintenance, along with quick, responsive service dispatched to your location.
